Collins – Scrap metal (steel, iron, brass, copper), jewelry findings, ceramics materials, sculpture tools.

Looking for something specific?

Scan the QR code for more details about what's available at each location! You'll also find info on donation opportunities and sustainability efforts at MassArt.

Welcome to Your MassArt Materials Guide!

Creativity and sustainability go hand in hand, and at MassArt, we're all about making the most of the resources around us. Across campus, you'll find places where you can grab free or shared materials—helping you save money and reduce waste. Whether you need paper, wood, fabric, metals, or just some unexpected treasures, this guide will help you track them down.

By reusing materials, sharing supplies, and giving second life to leftover resources, we can keep creativity flowing while being mindful of our impact. Some materials are open for everyone, some are reserved for specific departments, and others might require a quick check-in with a studio manager.

No matter what you're working on, there's a good chance you'll find something useful—so explore, create, and help make MassArt a more sustainable creative community!
